

Money Talks: Financial Literacy for Entrepreneurs

Let's be real—if you don't understand your numbers, your business is in trouble. **Jas** and **Jude** are here to demystify the world of finance, teaching you how to manage your money, forecast growth, and make smart financial decisions.

This isn't your typical finance lecture. We're cutting out the fluff and giving you the practical tools you need to understand your money, maximise profits, and scale your business sustainably.

What to Expect:

- **Money Management for Entrepreneurs:** The basics of budgeting, forecasting, and cash flow.
- **Taxes & Legal Considerations:** What you need to know about taxes, VAT, and accounting.
- **Profit Isn't a Dirty Word:** Why you need to focus on profit margins.
- **Smart Investments:** How and when to invest in your business for growth.

Leave with a financial plan that will help you grow your business without going broke.
